

# RADIO WAVES 2021

Basics of community radio, TSSS, Thiruvananthapuram | Sept 2-4

Hosted by the Forecasting with Fishers research team of CUSAT Advanced Centre for Atmospheric Radar Research (ACARR) and Sussex School of Global Studies; in collaboration with Trivandrum Media

Commission and Institute of Journalism, Press Club, Thiruvananthapuram.

Radio Waves 2021 aims to train a group of youth from coastal villages of Thiruvananthapuram in different aspects of community

radio production—such as reporting, interviews, news and features, anchoring, hosting talk shows and music programmes, compiling weather bulletins, sound editing and special effects. The participants include media

students from St Xavier's College and Institute of Journalism; and producers of online media initiatives such as Radio Kadal at Karumkulam and the communications unit of Sneharam, Anjengo.
